

ATL ZONING 2.0 – FOCUSED WORKSHOP #1

OPTIONAL - NOMINATE A POTENTIAL TEST SITE

As the new Zoning Ordinance is written, we want to test how theoretical zoning standards could shape real-world development. We will do this by identifying “test sites” that we will then use to prepare graphics illustrating existing and potential zoning standards. We know that zoning can be confusing and hope that using test sites will make it more understandable.

We are currently working to identify diverse sites across Atlanta that represent typical development scenarios. If you would like to nominate a site, please let us know using the form below.

Please include one of the following:

- The site’s ADDRESS, if known (e.g., 123 Main Street); or
- The site’s DESCRIPTION (e.g., the vacant shopping center at Main Street and Elm Street)

The Department of City Planning will make the final site selection.

Please leave your suggestions in the basket on the sign-in table.
